

Martin H. Samuel

Born and raised in Kenya (1949), schooled in England then South Africa (expelled from high school), Martin, born with perfect meter, became a professional drummer (20 years ~ U.K., Europe and N. America), a published / recorded lyricist, a blue-water sailor, a world surfer, an international flight attendant, an award-winning game designer and, in 1979, creator of the Chord Board (printed by Datalizer). The C.B. is a color-coded slide rule that displays the notes necessary to form and / or transpose chords in music and is now also an iPhone / iPod Touch app. that plays the notes and chords.
